## FOREWORD

Kivells are delighted to have received instructions from Messrs Roskilly & Sons of Higher Trenhayle Farm, Hayle to disperse their entire mainly Pedigree Ayrshire herd removed to Holsworthy Livestock Market for convenience of sale.

The Roskilly family took the tenancy and moved to Higher Trenhayle Farm in 1958 and since the first Ayrshire was purchased in 1952 all cows have been homebred and the herd has been closed for 40 years. The majority of the cows are fully registered with the Ayrshire Cattle Society and the youngstock although not registered, are eligible for registration. Top quality AI sires have been used over the years to develop the herd and the cows are served to Whitecroft Doctor Foster (sexed) and Hilltown Oblique (conventional) with some Hereford, Angus & Simmental used.

The herd has been farmed on a very commercial basis recently with grass silage fed in ring feeders and concentrates in the parlour only. Cows are grazed during the summer months from February – November making use of the ideal location to grow early spring grass. The cows are **Cubicle housed** in the winter months and milked once a day through the Herringbone parlour.

### **Herd Average**

Milk sold figure: 5,000 Kgs 4.52%BF 3.57%P

### **Calving pattern**

The herd calves mainly between May to November and a feature is the 30 In Calf Heifers due to calve in September & October to sexed semen.

### **Herd health**

The herd is not vaccinated. The cows are screened for Johnes and no cases have been recorded. Dry cows are treated with Ubro Red. The herd passed the whole herd TB test on 22.06.20.

### **Auctioneers comment:**

Fred & Derek Roskilly have made the decision to change their farming policy and take life a little easier and retire from dairy farming. The herd of cows offered for sale are a quality, homebred herd of Ayrshire cows, reflecting the strengths of the Ayrshire breed with well-shaped udders and good teat placement, exceptional legs and feet and 40 years of consistent breeding which offers prospective buyers the chance to purchase cows ideally suited for low cost grazing systems. However, the genetic potential of these cows would also allow them to go on and perform in a high yielding farming system.

### **Kivells**

## **Cows or heifers sold as served or guaranteed in calf.**

When an animal stated to have been served **less than 10 weeks** prior to the sale and is **pregnancy diagnosed positive**, this is given as **guidance only** and carries **no warranty**. If a cow or heifer has been positively diagnosed as **10 weeks or more in calf** at the time of sale and thereafter is proved to be not in-calf, and a **Veterinary Surgeon's certificate** to that effect is produced there is a **38 + 5 day warranty**.

Where a cow or heifer is sold as 'having run with a bull' no warranty as to the animal being **in calf** at the time of sale is given.
