Foreword

Kivells are delighted to have received instructions from Jon & Andrew Bird of Marlbrook Farms, Treforda, Bude to disperse their Pedigree "Marlbrook" herd of blended Red & White Holsteins & Ayrshires on Wednesday 10th July at Holsworthy Livestock Market.

The Marlbrook herd was established in Sussex in 1955 with cows bought from the Breabank and Breach Barn herds in the South East. The Bird family moved to Winnacott Farm, North Petherwin in Cornwall in 1966. In 2000 the herd moved to Broadlands Farm, Jacobstow when a 20 year tenancy was taken from Cornwall County Council. This dispersal arises due to the forthcoming end of the tenancy and no new generation to take on the herd. The herd has expanded over the past 25 years with purchases from numerous pedigree Ayrshire herds: Dilham, Tregonwell, Romany, Gadles, Meikles, Eyton, Hilltown, Marlow, Tregays, Rosehill, Heydale and Knutsford. The bloodlines are therefore very wide. However, the herd has remained closed for the last 12 years. For the last decade or so the cows have been blended to Red Holstein, with a small amount of MRI, but the aim has been to maintain cows that are around 50% Ayrshire. The result has been cows with great frames whilst still producing high levels of fat and protein, for which the Ayrshire breed is famous. This has been particularly valuable for our milk contract with Dairy Crest, Davidstow, where milk composition is rewarded with a higher payment. Over the years we have consistently achieved a milk price 2 pence above the base price for a significant part of the year. During the winter months, combined fat and protein often exceed 8%. The new Dairy Crest contract, which comes into force next April, will place an even higher reward on composition, particularly protein.

Management

The herd is milked through a 10:20 Herringbone Parlour and during the winter are **housed in Cubicles** and fed by a Keenan mixer wagon. The diet is simple with grass silage (a mix of clamp and big bale to maintain long fibre), wheat straw and a protein mix designed on the basis of the silage analysis by Harpers Feeds. The cows have 24 hour access to Out Of Parlour feeders with an 18% Dairy nut. During the Summer the cows are grazed and buffer fed a Keenan mix of grass silage, straw, and protein blend. Night paddocks give the cows access to the Out Of Parlour feeders.

Our policy has been to let the cows perform quietly for milk quality and health rather than pushing for yield. We believe that the premium price on milk quality and the saving in veterinary and medicine costs and cow longevity is a good economic choice. It's worked for 64 years! That said, the larger frame of the cows since crossing with Holstein means they are more than capable of higher yields on a more powerful diet.

Herd Average

The herd is NMR recorded and the annual average is **5581Kgs 4.18BF 3.47PTN cc173. The Normal Winter Average of combined BF and PTN over 8%. Average cc of Cows in the Sale cc108.**

Calving Pattern

The herd is all year round calving with the following pattern;

Jan-March (30), April-June (35), July-September (35), October-November (24) and December-January (14).

Herd Age

This is generally a young herd although still a good number of senior cows demonstrating the longevity of the breed. There are 34 milking Heifers, 36 second, 32 third, 18 fourth, 5 fifth and 22 sixth plus calvers.

Herd Health

The herd is Lepto and BVD vaccinated. Johnes Screened. The herd has remained closed for the last 12 years.

Auctioneers Comments

This dispersal sale brings to the market a really super long established herd of blended Red & White Holsteins and Ayrshires which have been carefully bred for many years by Jon & Andrew Bird. They are powerful, deep bodied cows with excellent udders, legs and feet and there is no doubt that these cows have the potential to go onto a more intensive system and produce higher yields and equally they will go onto grazing type systems and continue to perform well. This is a genuine dispersal and anyone looking for strong and hardy cows or wanting to add some colour to their herd should make every effort to attend this sale!

Comments from Mark Bromell

I am very disappointed to miss the Marlbrook Dispersal Sale. Andrew and Jon Bird have developed a superb herd of red and white genetic cows which are a true credit to the family. I have had the pleasure of working with the Bird Family for 20 years and I cannot speak highly enough of both the family and the cows. I wish them well on sale day and thoroughly recommend the cows to all perspective purchasers.

Vet Comment

For the last 25 years I have had the pleasure of working with Andrew and Jon Bird and their lovely cows and the practice has worked with the herd for over 50 years. I have always had a soft spot for Ayrshires, there is just a little bit more to them than Holsteins. Early on we started routine fertility visits and Jon was quick to record with a computer system when this was unusual. Records and attention to detail have always been present. The herd is run on a commercial basis as one would expect, but with the excellent longevity of the cows with several having over 10 lactations, a little sentiment may creep in. We all had a soft spot for Gladstone Ingrid, who was a star of the Open Farm Sunday event a few years back. She was in a pen with her many female descendants. Ingrid never left the farm, completing 16 lactations and dying in her sleep just shy of her twentieth birthday.

There has never been much to do between the monthly routines, in fact there is no calving jack at the farm. We believe we have had 4 caesareans in 50 years. The cows are vaccinated against leptospirosis and BVD. The farm is on wet ground and consequently we treat for liver fluke at drying off.

A dispersal sale is always a little sad, I feel for the cows split from their mates and scattered around the country. So, if you can, buy a few!

Feed Consultant Comment

I have had the great pleasure of feeding Andrew and Jon's cows since 2013. The diet has always focused on milk quality keeping the cows healthy and profitable. High emphasis has been placed on efficiency and longevity feeding grass, grass silage with a bespoke blend and topped up with Buttermax in the OOPF. These well-bred strong cows will go away and prove how Andrew and Jon's years of dedication and hard work will please any potential new owners. All that remains is for myself and Harpers Feeds to thank Andrew and Jon for their years of loyalty and we wish them well in their next venture.

If the **purchaser** proves a breach of warranty the **purchaser** may return the animal to the **vendor**. Notice of claim must be supported by a **veterinary surgeon's certificate**.

The vendor warrants a dairy cow or heifer in calf and/or in milk: (a) To be correct in the udder and teats; (b) Not to be infected with **clinical mastitis**; (c) Not to suck any other animal or herself; and (d) To be **quiet to milk**. The warranty in conditions (c) & (d) is a **5+5 day warranty**.

This warranty is a **3 day warranty** in which any claim made by the **purchaser** must be supported by a **veterinary surgeon's certificate**. The **vendor** is obliged to pay for the cost of one wash out.

If a cow or heifer has been positively diagnosed as **10 weeks or more in calf** at the time of sale and thereafter is proved to be not in-calf, and a **Veterinary Surgeon's certificate** to that effect is produced there is a **38 + 5 day warranty**. Where a cow or heifer is sold as 'having run with a bull' no warranty as to the animal being **in calf** at the time of sale is given.

NOTICE TO PURCHASERS:- Please could all buyers and particularly those under **TB Restrictions**, make sure they are fully satisfied with their purchases before the cattle are removed from the market. If you are purchasing cattle and your farm is under TB Restriction, it is not possible for the vendor to take the animal back should there be an issue, **therefore we ask that all buyers ensure their purchases are sound and correct in the udder and are completely satisfied before taking them home.**

We would recommend that all prospective purchasers make contact with a haulier in advance of the sale.
